

Village Tourism

A new destination for rural tourism: Village of Beğiş. Village of Beğiş has been declared as the starting point of the best hiking trail in Europe by the World Health Organization (WHO). It creates a suitable living space for "VILLAGE TOURISM" due to its nostalgic / authentic stone houses. Beğiş Village is also known as "village of Susuz". This place has been a set for various movies in recent years. The village is 70 km away from Antalya. It is 10 km from Korkuteli. 80-90 percent of the population has migrated in the last 15 years due to lack of water. It was a village that was about to disappear with its history, texture and character. It is known as the "waterless village" among the people.

Paragliding

Paragliding, which is one of the most preferred activities by tourists, is carried out in our region with its natural places.

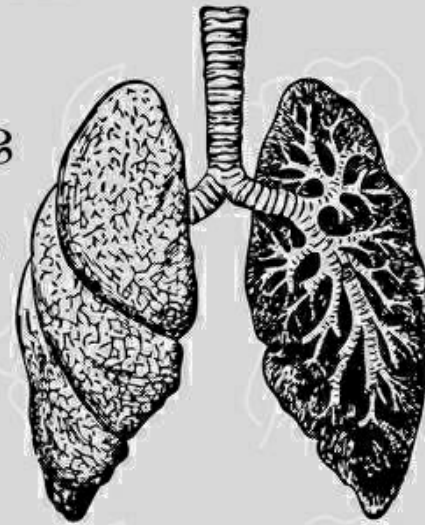

If you happen to pass Korkuteli one day, you should try this amazing activity.

Clean Air

In general, our cold air is rich with oxygen, we have an air that fills people with peace, away from the air pollution experienced in most countries, this air can be good for some diseases.

Plateau Tourism

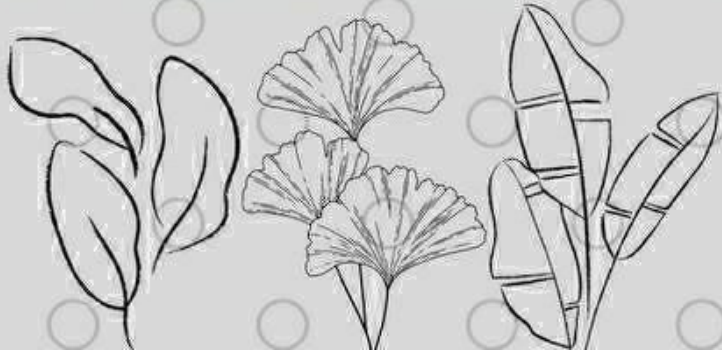

Korkuteli leads the way in the plateaus, which are preferred by tourists a lot. The most famous ones among Antalya Korkuteli plateaus are Imecik, Varsak and Yazır plateaus where you can spend cool times in greenery, with clean air, plenty of oxygen. The plateaus, which attract attention in terms of district tourism, are the favorite places of the region. Thanks to Korkuteli springs, which attract the attention of local and foreign tourists in spring and summer, the population of the district increases up to 3 times.
